P.O. Box 1353  
Cary, NC 27512  
(919) 851-8898

To Whom It May Concern:

Quality Design & Construction, Inc. has employed the services of Coastal Screening on numerous occasions for a wide variety of remodeling projects. We find our experience with this company to be a professional and efficient one; they provide a superior product for a reasonable price. Often we will hold home tours to showcase our work and you can bet one of the biggest attention grabbers is the screen installation at Coastal Screening. With their help, our screened porches literally stop potential customers in their tracks and when they ask about the screening, we always reply with the same line "Coastal Screening stretches their screens so tight you can bounce a quarter off them!"

Are they professional? Yes. Are they reliable? Yes. But more importantly, we have a warm relationship with the personnel at Coastal Screening and have trusted the quality, integrity and timeliness of their company for years. It is obvious their employees take pride in their work and enjoy doing their job. When they face challenges in the field, they immediately offer creative solutions and provide that extra little something that makes such a tremendous difference. I highly recommend the use of Coastal Screening to any one with screening needs and feel confident to say that if you go to Coastal, you will not be disappointed!

If I may be of any further assistance, or if additional referrals are needed, please do not hesitate to contact me!

Sincerely,

A handwritten signature in blue ink that reads "David J. Mackowski".
